

EcoPro G2 wins Refrigeration Innovation of the Year Award

Foster Refrigerator's outstanding new EcoPro G2 refrigerator range was awarded the prize for the Refrigeration Innovation of the Year at the RAC Cooling Industry Awards, held at the London Hilton, Park Lane.

At a celebration awards dinner attended by 620 professionals in the refrigeration and cooling sector, Foster was delighted to collect the award which fully recognises the technological achievement of the ground breaking EcoPro G2 range. RAC Editor, Andrew Gaved commented "With the bar for energy efficiency and low-carbon being raised ever-higher, this industry continually meets customer demand with quality products, high service standards and inspirational solutions".

Chris Playford, Foster Refrigerator's Market and Development Director, said: "This is a fantastic achievement and we are really delighted that the EcoPro G2 is being acknowledged by the industry as a major advancement in quality, engineering and environmentally efficient refrigeration. We're very thankful to RAC for the award and we hope it will be one of many more to come for this EcoPro G2 range."

Chris Playford, Market and Development Director, accepts the award on behalf of Foster Refrigerator

a generation of innovation
