- PRO Event plate ..... 15 - 16
- lightweight, reusable plate made of plastic with integrated clip for holding stemware.

# Rack System 500

Racks 500 x 500 mm - the worldwide standard

The specific needs of the restaurant, hotel and catering industry, and of dishwasher manufacturers, have been key factors in the development of the Fries Rack System. Fries custom-made glass racks provide a protective fit for any size of glass - and their unique open design offers super-efficient circulation of hot water and drying air to give you clean, crystal clear glasses.

# Glass racks for glasses in upright position

## Heights

### Type A

glass height up to:

073 mm
--------

# Benefits

## Colour coding

## Optional tilting

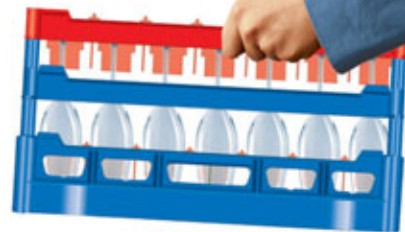

## Choosing the right rack

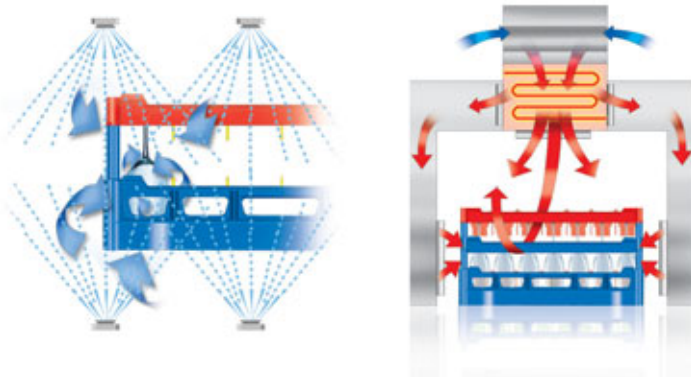

The FRIES measuring chart makes it easy to choose the correct compartment size and the right height of rack

## Comfort in handling

- easier and more comfortable to handle
- easy monitoring of rack contents

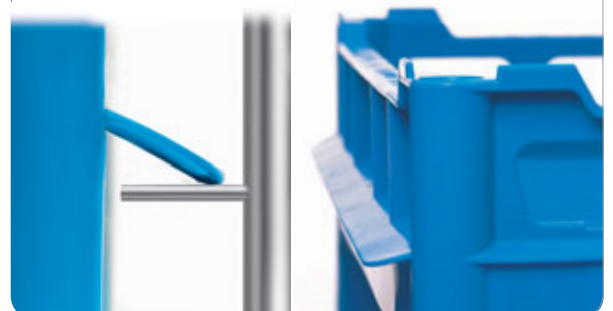

## Open rack

## Gastro Norm dimensions

Gastro Norm racks measuring 500 x 530 mm are available. These have side runners that enable the rack to be directly inserted into the Gastro Norm rails

Glass racks can be stored or carried on plastic pallets measuring 1000 x 1200 mm

### DROLB 500

Platform cart with two push bars, to hold two stacks of glass racks

### ROL 500

Platform cart with removable drip tray, without push bar

### ROLB 500

Platform cart with removable drip tray and push bar

### ABH 500

Plastic cover for racks, maximum height 1.6 metres

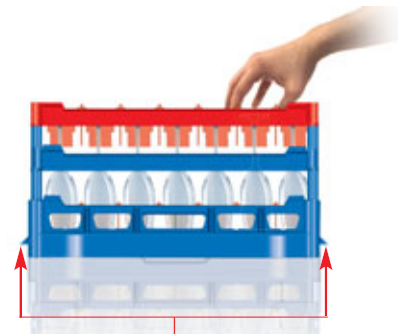

**Gastro Norm dimensions**

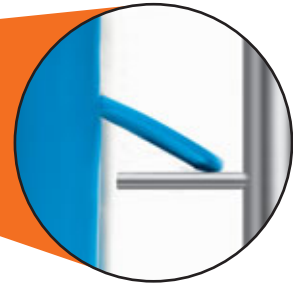

The Fries Gastro Norm rack with runners that allow the racks to be directly inserted into Gastro Norm storage trolleys

**Benefits**

Gastro Norm racks measuring 500 x 530 mm are available on request

**Embossing**

Heat stamping with single-colour foil

# Transport / storage container

Market research indicated the need for a universal container:

- that can store and transport food, bottles, plates and china of varying sizes, safely and hygienically
- made of transparent, hygienic polypropylene, with colour coded lids, to provide easy identification of contents
- that provides free flow of air to ensure freshness
- that is stackable and dishwasher safe
- that meets health and safety regulations

The answer to all these requirements is the Fries BOX

# Transport / Storage container

BOX

Easy handling

Variety of uses

Easy identification of contents

Suitable for standard EURO pallets  
1200 x 800 mm

**BOX**

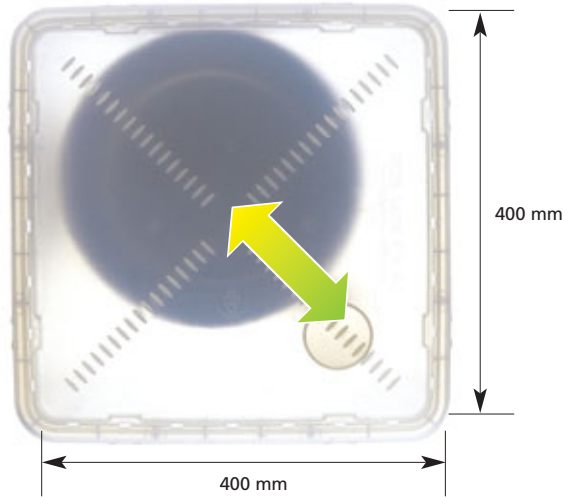

approx. 24 large plates diameter 26 cm

approx. 60 plates diameter 19 cm

approx. 56 cups + plates diameter 16 cm

**Thermo-insulated inner container with lid**

# The Benefits

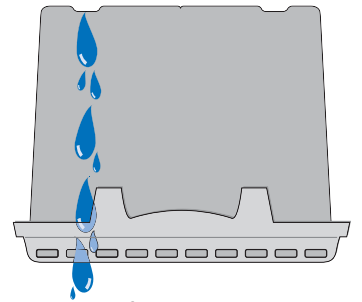

**Tamper proof**

**Colour coded lids**

**Suitable for dishwashers**

The design of the BOX allows water to fully drain away in standard commercial dishwashers

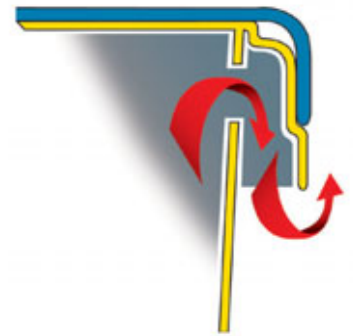

**Transparent**

**Space saving**

**Indirect ventilation**

Ventilation slots for free airflow

**Easy handling**

**Easily opened**

## FACTBOX

- fits standard European pallets
- outside dimension: L400 x B400 x H315 mm
- clamping force < 200 kg
- approx. 32 litre capacity
- fixing element Vary-tool
- solid and resistant
- stackable
- made of transparent, hygienic polypropylene resistant to all foodstuffs
- stackable inside each other when empty
- allows free flow of air
- suitable for commercial dishwashers
- colour coding
- tamper proof
- hot stamping upon request

**Stackable**

**Versatile**

# PRO Event Plate

At receptions and parties, the PRO Event plate solves the problem of how you can shake hands when greeting other guests, with a glass in one hand and a plate in the other. The PRO Event plate lets you meet, mingle and relax in comfort.

# PRO Event Plate

## More freedom to move when talking

It's nice to be able to relax with a drink and a bite to eat while mingling with friends and colleagues. But how do you offer a handshake when both hands are tied up with a glass and plate? The PRO Event plate offers a smart modern solution to this age-old dilemma.

## FACTBOX

- lightweight, reusable plate
- constructed of unbreakable plastic
- can be washed in standard commercial dishwashers
- a total of 120 plates fit in the Fries BOX with a total weight of less than 15 kg
- using the Fries BOX you can store more than 5,000 plates on one EURO pallet

A total of 120 plates fit in the BOX

Dishwasher safe
