# Fries Rack System 500 x 500 mm

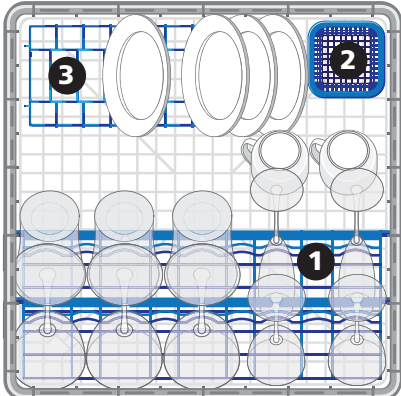

## Base rack R500

The rack design ensures water circulates efficiently over and around the items in the rack, significantly improving washing results. The sides are high enough to keep all items safely inside the rack during the wash cycle.

**External dimensions:** 500 x 500 x 174 mm  
**Internal dimensions:** 460 x 460 x 150 mm  
**Stacked height of 2 R500s:** 305 mm

## Accessory

Thanks to a range of optional and movable inserts, you can rearrange the internal configuration of the rack as often as you wish to meet your various warewashing needs, making this the ideal unit for pubs, bars, cafes and restaurants.

### 1 Glasrelax GR500

The Glasrelax insert is designed to safely hold glasses in an inclined position. This helps to reduce breakages, and also improves water flow. Up to 5 Glasrelax inserts can be placed in the rack.

### 2 Cutlery holder CBS

With pyramid-shaped base to improve water flow.  
 External dimensions: 105 x 105 x 140 mm

### 3 Plate insert PI 400

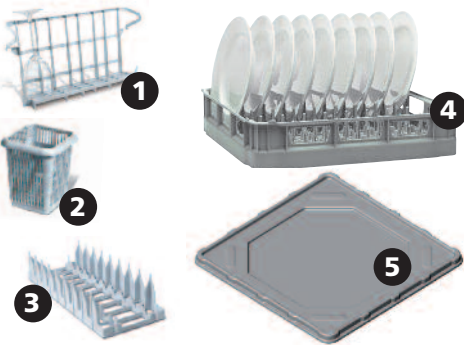

This insert for washing plates can hold 9 plates, each measuring up to 240 mm.

### 4 Plate rack P 18 - 12

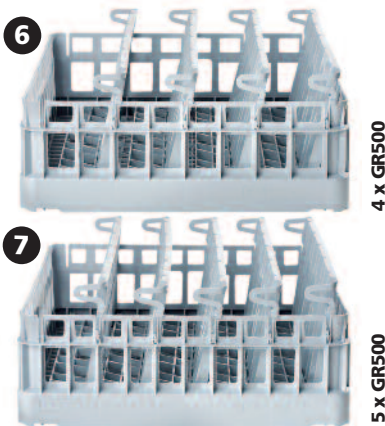

The plate rack P 18 - 12, external dimensions 500 x 500 x 100 mm is the ideal addition if plates are to be washed. It holds 18 flat or 12 deep plates.

### 5 Drip tray AWAT 500

The perfect drip tray for use on the counter.

## Glasrelax GR500 suggestions for positioning the inserts

**You can use up to 4 Glasrelax inserts for larger glasses and up to 5 Glasrelax inserts for smaller glasses.**

### 6 With four inserts (advised for larger glasses):

Row 1 can be used to hold tulip-shaped glasses up to 111 mm diameter.  
 Rows 2 - 4 can be positioned to allow for glasses measuring up to 95 mm diameter.

### 7 With five inserts:

Row 1 can be used to hold tulip-shaped glasses up to 97 mm diameter.  
 Rows 2 - 5 can be positioned to allow for glasses measuring up to 75 mm diameter.
