Rack System L 400

Racks 400 x 400 mm – for small under counter glass washing machines

The racks are available in two external dimensions at the base:
390 and 396 mm

The specific needs of the restaurant, hotel and catering industry, and of dishwasher manufacturers, have been key factors in the development of the Fries Glass Rack System.

Its unique design offers a protective fit for any size of glass and super-efficient circulation of hot water and drying air to give you clean, crystal clear glasses.
