

TIGER

thermoplan

Compact, high performance...

With TIGER coffee machines you create a special kind of coffee and milk pleasure to your customers' tables.

... and versatile.

Cappuccino, Latte Macchiato or cold milk foam, with TIGER and TIGER^{cool} everything you do will succeed perfectly.

You determine the selection.

6 or 12 freely programmable product selection keys make preparation and selection equally easy: Pressing a button is all you need to do to automatically brew a Ristretto, Espresso, Coffee, Cappuccino, Cafe au Lait, Latte Macchiato, Espresso Macchiato, Hot milk or Tea.

With TIGER^{COOL} you also conjure up delicious cold milk and specialty LATTINO[®] drinks.

Freely programmable product selection keys

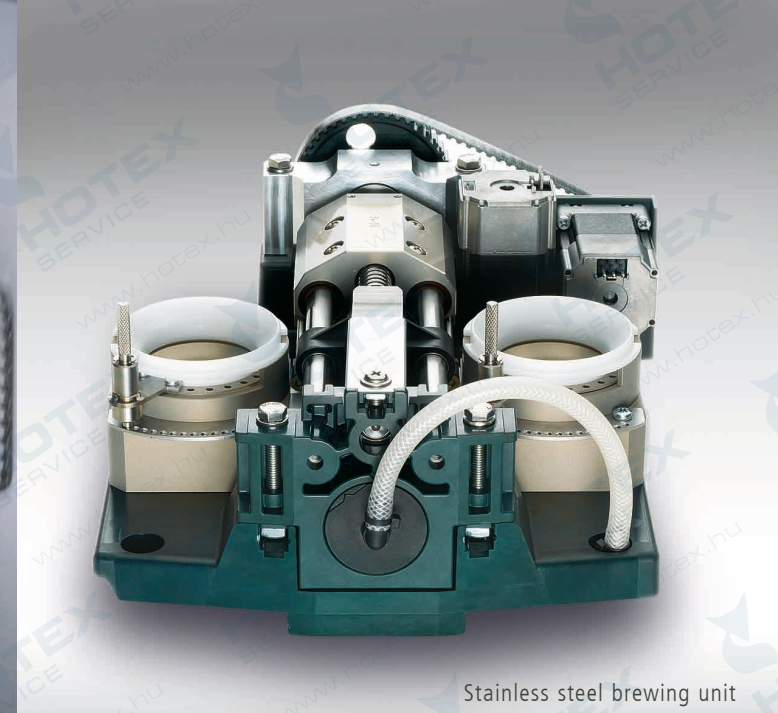

Technology in service of pleasure.

For the first time, undiluted milk provides the perfect taste: Thanks to the patented ThermoFoam system it heats and frothes the milk in seconds - not with traditional steam but in a heating system equipped with temperature sensors.

Heavy-duty brewing unit made of stainless steel.

POD-System

Stainless steel brewing unit

Bean hopper for 2 kinds of coffee

Chassis with 4l milk tank

As individual as You are.

The TIGER model just the way you want it: Choose the desired model, available in two basic or in all NCS colours.

With one or two grinders, with ThermoFoam or steam system, with or without the chassis and milk tank.

Features and Benefits:

- Compact construction
- Use of coffee pads
- Stainless steel brewing unit
- Heavy-duty aluminium grinder with stainless steel burrs
- Chassis with various fittings
