

BLACK&WHITE 3

A breath of magic...

BLACK&WHITE3 represents another innovation from Thermoplan. Whether Cappuccino, Latte Macchiato or cold milk foam - with the new generation you conjure up wonderful top-quality specialties.

...the cool milk solution

With the central spout you prepare unique milk foam with breathtaking consistency - marvellously creamy and firm.

 espresso	 2 espresso	 americano	 large americano
 coffee	 2 coffee	 decaf espresso	 decaf

BLACK&WHITE 3

The Module System

BLACK&WHITE3 is a modular assembly. Maintenance can thereby be carried out quickly and cost-effectively. All three modules are exchanged in an instant - that is unique for coffee machines.

Brewing module

1 or 2 grinders. The stainless steel brewing unit guarantees top coffee taste.

Hydraulic module

Hot water preparation, water distribution, coffee boiler, pump, valve block.

Steam module

High capacity 4-litre boiler for continuous unlimited steam and hot water supply.

Modern operational concept

The large, colourful touchscreen flexibly supports all products and can be adapted to your special requirements.

The cleaning key makes care easy.

All work steps, such as filling the beans, emptying the grounds drawer or starting the automatic cleaning process are easy to operate.

Perfection

- Modular assembly
- Stainless steel brewing unit
- Heavy-duty aluminium grinder with ceramic burrs
- Steam pipe made of Peek™
- Manual and automatic steam output
- Chrome plated steel front panel
- Touchscreen with LCD display

Versatile to suit all tastes

The CT prepares coffee and hot water and its mere 350 mm in width allows to fit on any countertop.

The CTS model is the right choice for traditional milk preparation with steam.

Whether hot or cold, the CTM makes preparing coffee or milk specialties a success.
